#### 1. Qualitative Information on the Consolidated Financial Statements

#### (1) Qualitative Information Regarding Consolidated Results of Operations

The Japanese economy during the first nine months of the fiscal year ending December 31, 2019 generally continued to be flat with government economic and fiscal policies providing some support, while concerns about the policy trend in the United States, the continuity of the growth momentum of the Chinese economy, and the labor shortage in Japan made the outlook for the future Japanese economy unpredictable.

Among mid-to-small manufacturers, the major customers of our industrial MRO products, economic conditions also remained at the same level corresponding to similar circumstances.

In this economic environment, we have continually concentrated on acquiring new customers aggressively mainly through internet advertisements (paid listings) and internet search engine optimization (SEO), which can improve our website's position on the search engines. We also conducted promotion activities including direct mail using e-mail and mail flyers, daily special prices, the publication and distribution of catalogs and TV and radio commercials. In terms of catalogs, we newly published REDBOOK vol. 15 Spring Edition in late February, divided into 11 volumes with 195 thousand items and approximately 2.4 million issues available in total and we also published REDBOOK vol. 15 Autumn Edition in late August, divided into 10 volumes with 304 thousand items and approximately 2.9 million issues available in total. In addition, we broadcasted TV commercials throughout Japan, except for a few specific geographic areas.

Furthermore, the total number of our product lineup reached approximately 18 million items in total and 449 thousand items in stock which are available for the same day shipment to meet the increase in demand corresponding to the expansion of our customer base as of the end of the first nine months of the fiscal year ending December 31, 2019.

In addition, in relation to the sales of MRO products to large customers through the integrated purchase systems, both the number of customers and the amount of sales steadily increased.

Consequently, we have successfully obtained 577,074 newly registered accounts for the first nine months of the fiscal year ending December 31, 2019 and the number of registered accounts totaled 3,940,785 as of the end of the second quarter.

In addition, NAVIMRO, which is our Korean subsidiary, also aggressively engaged in acquiring new customers mainly through paid listings and focused on increasing both its product lineup and the number of products in stock in order to expand its customer base.

All of our efforts mentioned above resulted in net sales of 96,653 million yen (22.4% increase from the same period of the previous fiscal year), operating income of 11,303 million yen (11.3% increase from the same period of the previous fiscal year), ordinary income of 11,345 million yen (11.8% increase from the same period of the previous fiscal year), and net income attributable to owners of the parent of 7,752 million yen, a corresponding 11.0% increase.

### (2) Qualitative Information Regarding Consolidated Financial Position

Total assets as of September 30, 2019 (the end of the first nine months of the fiscal year ending December 31, 2019) amounted to 53,764 million yen, an increase of 3,058 million yen from the end of the previous fiscal year. This was attributable to increases of 2,388 million yen, 1,306 million yen and 1,989 million yen in notes and accounts receivable-trade, merchandise and leased assets, respectively, despite a decrease of 5,830 million yen in cash and deposits. On the other hand, total liabilities as of September 30, 2019 amounted to 19,690 million yen, a decrease of 1,177 million

yen from the end of the previous fiscal year. This was due mainly to decreases of 1,429 million yen, 787 million yen and 2,000 million yen in income taxes payable, consumption taxes payable and long-term loans payable, respectively, despite increases of 966 million yen and 1,038 million yen in accounts payable-trade and lease obligations, respectively.

Total net assets amounted to 34,074 million yen, an increase of 4,236 million yen from the end of the previous fiscal year. This was largely due to net income attributable to owners of the parent of 7,752 million yen offset by dividend payments of 3,476 million yen for the first nine months of the fiscal year ending December 31, 2019.

As a result, the equity ratio as of September 30, 2019 was 62.8%, up 4.5 percentage points from the end of the previous fiscal year.

## (3) Forecast for the Fiscal Year Ending December 31, 2019

Our consolidated financial results for the first nine months of this fiscal year were almost in line with our plan. Therefore, the consolidated forecast for the fiscal year ending December 31, 2019, disclosed on January 30, 2019, has not been changed at this time.
