The forecasts above are based on the judgments made in accordance with information currently available. Forecasts therefore include risks and uncertainties. Actual figures may differ from these forecasts due to subsequent changes in the circumstances.

1. Qualitative Information on the Consolidated Financial Statements

(1) Qualitative Information Regarding Consolidated Results of Operations

The Japanese economy during the fiscal year ended December 31, 2019 generally continued to be flat with government economic and fiscal policies providing some support, while concerns about the policy trend in the United States, the continuity of the growth momentum of the Chinese economy, and the labor shortage in Japan made the outlook for the future Japanese economy unpredictable.

Among mid-to-small manufacturers, the major customers of our industrial MRO products, economic conditions remained weak corresponding to similar circumstances.

In this economic environment, we have continually concentrated on acquiring new customers aggressively mainly through internet advertisements (paid listings) and internet search engine optimization (SEO), which can improve our website's position on the search engines. We also conducted promotion activities including direct mail using e-mail and mail flyers, daily special prices, the publication and distribution of catalogs and TV and radio commercials. In terms of catalogs, we newly published REDBOOK vol. 15 Spring Edition in late February, divided into 11 volumes with 195 thousand items and approximately 2.4 million issues available in total and we also published REDBOOK vol. 15 Autumn Edition in late August, divided into 10 volumes with 304 thousand items and approximately 2.9 million issues available in total. In addition, we broadcasted TV commercials throughout Japan, except for a few specific geographic areas.

Furthermore, the total number of our product lineup reached approximately 18 million items in total and 461 thousand items in stock which are available for the same day shipment to meet the increase in demand corresponding to the expansion of our customer base as of the end of the fiscal year ended December 31, 2019.

In addition, in relation to the sales of MRO products to large customers through the integrated purchase systems, both the number of customers and the amount of sales steadily increased.

Consequently, we have successfully obtained 745,990 newly registered accounts for the fiscal year ended December 31, 2019 and the number of registered accounts totaled 4,109,701 as of December 31, 2019.

In addition, NAVIMRO, which is our Korean subsidiary, achieved an annual break-even by aggressively engaging in acquiring new customers mainly through paid listings and focused on increasing both its product lineup and the number of products in stock in order to expand its customer base.

All of our efforts mentioned above resulted in net sales of 131,463 million yen (20.0% increase from the previous fiscal year), operating income of 15,839 million yen (14.9% increase from the previous fiscal year), ordinary income of 15,887 million yen (15.2% increase from the previous fiscal year), and net income attributable to owners of the parent of 10,984 million yen, a corresponding 15.4% increase.

(2) Qualitative Information Regarding Consolidated Financial Position

Total assets as of December 31, 2019 (the end of the fiscal year) amounted to 59,691 million yen, an increase of 8,985 million yen from the end of the previous fiscal year. This was attributable to increases of 2,677 million yen, 1,838 million yen and 1,855 million yen in notes and accounts receivable-trade, merchandise and leased assets, respectively, despite a decrease of 1,226 million yen in cash and deposits.

On the other hand, total liabilities as of December 31, 2019 amounted to 22,179 million yen, an increase of 1,311 million yen from the end of the previous fiscal year. This was due mainly to increases of 1,511 million yen and 1,035 million yen in accounts payable-trade and lease obligations, respectively, despite a decrease of 2,000 million yen in long-term loans payable.

Total net assets amounted to 37,512 million yen, an increase of 7,674 million yen from the end of the previous fiscal year. This was largely due to net income attributable to owners of the parent of 10,984 million yen offset by dividend payments of 3,476 million yen for the fiscal year ended December 31, 2019.

As a result, the equity ratio as of December 31, 2019 was 62.1%, up 3.8 percentage points from the end of the previous fiscal year.

(3) Forecast for the Fiscal Year Ending December 31, 2020

During the fiscal year ending December 31, 2020, we will continue aggressive promotional activities to gain new customers mainly using internet advertisements (paid listings) and internet search engine optimization (SEO).

In addition, we plan to engage actively in sales promotion activities with existing customers with a focus on expanding our available product lineup corresponding to the growth of our customer base, conducting promotion activities based on highly precise data science tools, improving website design in order for customers to use it and place orders more easily and expanding the product lineup for the same day shipment including both goods in stock and drop shipment goods from suppliers.

Also, NAVIMRO, MONOTARO INDONESIA and Zoro Shanghai Co., Ltd. will continuously engage in acquiring new customers mainly through paid listings and focus on increasing each of their respective product lineups and the number of products in stock in order to expand their customer base.

In view of the implementation of the plan above, our current forecast estimates of net sales, operating income, ordinary income and net income attributable to owners of the parent for the fiscal year ending December 31, 2020 are 156,468 million yen, 18,569 million yen, 18,584 million yen and 12,997 million yen, respectively.
